1. Adversity. In 2013, the United States reached an educational milestone. For the first time, a majority of the country's public school students — 51 percent of them, to be precise — fell below the federal government's threshold for being "low income," meaning they were eligible for a free or subsidized school lunch.

New Mathematics or New Math was a brief, dramatic change in the way mathematics was taught in American grade schools, and to a lesser extent in European countries, during the 1960s. The change involved new curriculum topics and teaching practices introduced in the U.S. shortly after the Sputnik crisis, in order to boost science education and mathematical skill in the population, so that the ...
